STAT MEMORANDUM FOR: [REDACTED]
Office of Legislative Counsel

STAT FROM : [REDACTED]
Assistant General Counsel

SUBJECT : Biden Subcommittee Draft Report

STAT
STAT
Attached are OGC comments on the subject and a draft memorandum to Keith Raffel which you may wish to use once you hear from DDO on classification. I became involved in this with Raffel only because [REDACTED] who is handling it for [REDACTED], had to go out of town. I assume you will handle from here on and suggest a call to Raffel since [REDACTED] promised a response by 23 August, and I told Raffel on the 23rd that we would respond by 24 August.

We need your assistance on the attached report from the SSCI. As our cover note to indicates, the Committee wants to know if there is any problem with the material on pages 23 - 29 in terms of its requiring classification. They intend this to be an overt report.

Unfortunately, the Committee is in a rush for this and I am appealing for your help in getting this out today.

Please return this entire package to us. Thanks

This is a copy of the draft SSCI report regarding use of classified information in court. It has been sent to us for security review. The Committee hopes to have our approval to release it early this week. I have read it and the only possible areas I see where there might be classification problems are pages 23-29. Please review these pages ASAP and inform of OLC whether or not there are any problems. In addition, if there are any mistakes we have latitude to point these out as well. The Committee's conclusions and recommendations are sacrosanct.

The Office of Security is not qualified to comment on the classification or sensitivity of the CIA operations referred to on pages 24-29. Suggest you query EA Division

Although the Committee's conclusions and recommendations may be sacrosanct, I would like to comment that Recommendation #6 repeats the requirement to report "all activity in violation of U.S. law," which has plagued the entire Intelligence Community. The current requirement, depending on interpretation, demands the reporting of peccadilloes and misdemeanors which is obviously not the intent of this legislation.
